# TOTALPHASE

Flash Programming Kit Part Number: **TP120410**

Total Phase has bundled together a complete set of development tools and accessories that allow developers to erase, program, and verify Serial Flash memory chips.

Thanks to Total Phase's free Flash Center™ Software developers can quickly and easily program devices either stand-alone or in-system.

With this kit, developers can:

- Program SPI Serial Flash chips (SOIC-8 (150 mil), SOIC-8W (200 mil), and SOIC-16).
- Program devices in-system or stand-alone.
- Gang-program multiple devices in parallel.

The Programming Kit includes:

- (1) Cheetah SPI Host Adapter
- (1) 10-Pin Split Cables
- (1) Flash SOIC-8 Socket Board
- (1) Flash SOIC-16 Socket Board
- (1) 6 foot USB A->B cables
- Software CD
    - Windows USB Drivers
    - Linux USB Hot Plug Configuration files
    - GUI Software
    - Software API
    - Example Code
    - Datasheets
    - Documentation

Cheetah SPI
Host Adapter

10-Pin Split Cable

Flash SOIC-8
Socket Board

Flash SOIC-16
Socket Board
